• The recent reports concerning the disinformation from the so-called intelligence experts should make us reflect on how we've been brainwashed to rely on the definition of the word

"expert." Many "experts" have track records of being consistently wrong.

Maybe now when we hear any hint of the word "experts," we should immediately be incredulous and not be so trusting.

When ratings drop and money is lost, the media outlets will change their ways in a hurry.

And ignore that liberal rag The New York Times and pick up "America's newspaper," the New York Post.
