• "AG Garland's farce of law" once again reinforces the all-too-obvious: Trust goes hand-in-hand with transparency (Michael Goodwin, Aug. 14).

When dominant institutions, including the government and media, fail to deliver transparency, then trust becomes a non-entity.

From Day One, it was apparent that the current administration has failed terribly in the transparency department. As a result, the credibility of institutions is at an all-time low.

It is disheartening and extremely difficult to envision a solution to this problem without an overall change in the nature of human behavior.
